

## CEO Thought

“Managing is the art of getting things done through and with people people in formally organised groups. It is the art of creating an environment in which people can perform as individuals and yet co-operate towards attainment of group goals. It is the art of removing blocks to such performance.”

## TELEPHONE GROUPS

### For men with advanced prostate cancer

People with cancer often find it helpful to talk with others who have been through a similar experience. Now you can join a confidential telephone group and talk from the privacy of your own home.

Delivered via teleconference, these groups are professionally facilitated and meet weekly for around an hour over a period of six weeks.

Talk to others who understand what you are going through and discuss:

- Living with the impact of cancer
- How cancer effects relationships
- Coping with treatment and side effects

For more information, call 13 11 20 or email

[csg@cancervic.org.au](mailto:csg@cancervic.org.au)

Calls to the group are at the cost of a local call using a standard home phone with no other costs involved.
