# Assessment criteria

The following matters will be assessed in determining if the Community SHARE Grant application is successful:

- *Good use of public funds* - Does the event/project/streetscape works provide economic or demonstrated benefit to the community that outweighs expenditure (return on investment), or leverage greater funding for the event?
- *Limited capacity to attract other funding* - To what extent are there limited other sources of income for the event/project/streetscape works, and what alternatives have been explored to obtain further funding? Can it go ahead without this funding?
- *Alignment with Council Plan and/or Community Action Plan* - To what extent does the event/project/streetscape works deliver on the strategic objectives in the Council Plan or a Community Action Plan? Consider the overall benefit to the economy, health and environment within the Shire.
- *Diversity of people* - Does the event showcase the diversity of people and lifestyles in the Yarriambiack Shire? Does the project improve outcomes for all ages, cultures, genders, disabilities, socio-economic groups or improve mental health? Does the streetscape works improve physical access for all groups, or provide greater access to services for all groups?
- *Social wellbeing* - Does the event/project/streetscape works enhance social wellbeing and contribute positively to the image of Yarriambiack as a cohesive and inclusive community? Does it contribute to an overall town vision, increase pride of place, help to build networks within the community or enhance community spirit?
- *Capacity & sustainability* - To what extent does the funding contribute to long-term social, environmental, economic and financial outcomes? Does the funding meet an identified community need, provide something that is missing in the community, or make something easier for volunteers, businesses or the community?
- *Project planning* - Does the event/project/streetscape works have all approvals in place, all costs accurately calculated, clearly defined roles of all stakeholders, detailed plans and accurate timelines in place? Can it be demonstrated that if funded the project will be delivered as specified?

The evaluation process will also consider

- How often has the applicant and/or project received SHARE grant funding in the last 5 years?
- Does repeat funding applications for similar or the same project indicate a lack of sustainability?

The following Assessment matrix will be utilised by the Assessment Panel to score each project and a minimum rating of 50% from the Assessment Panel will be required for the application to be successful.
