To whom it concerns,

I am writing to inform the Council of an issue in Church Street Woomelang with bees. About 2 weeks ago, I noticed that hundreds of bees were gathering around my fish pond in the back yard. I have been speaking to the Ranger, Craig Byron who informed me to write to Council. Craig investigated and found bee hives at 30 Church Street. Craig also was unsure if these bees had a water source.

I am actually allergic to bees and am now required to visit an Allergy Specialist Clinic in Ballarat to obtain an EpiPen. I have lived in this house for 40 years have never before encountered this problem.

Your assistance in this matter would be most appreciated.

Yours sincerely,
