MAYOR'S INTRODUCTION

The Councillors and I were pleased to release the Budget for 2023-24 to the Community for comment and public submissions. This is the third budget that supports the strategic objectives outlined in the Council Plan 2021- 2025.

Our budget document outlines the four strategic objectives, along with the program initiatives and activities that align with each priority.

We are proud supporters of our communities, and where we can, we endeavour to provide financial and in-kind support to increase the overall social, health and wellbeing outcomes of our residents.

This budget has an estimated revenue of \$26.3million, with 40% of funding being derived from grants. Grant funding in this budget is less than prior years due to the financial assistance grant payment being brought forward and paid in the 22-23 financial year.

Council is heavily reliant on grant funding to undertake new projects, along with upgrades and renewals of existing assets.

We have allocated 57% of our Capital Works budget to roads and associated infrastructure being our largest asset base, with a further 30% to building and associated improvements, 12% to plant and equipment and 1% to recreation assets.

We partner with communities and volunteer organisations by providing a funding allocation to swimming pools, progress associations (or their equivalent), recreation reserves, halls and weir pools. We value the contribution the organisations and associated assets play in making our communities a more liveable and inclusive Shire.

The rate cap for the 2023-24 budget is 3.5%, with Council agreeing to maintain the differential farm rate at 62.5% of the General Rate.

The valuation impact on properties that informs the annual rates charge has seen an average increase of 22% for residential properties, 10% for commercial properties and 29% for farming properties.

Overall, with the differential rate being maintained, the combined rates derived from residential will decrease by 1%, commercial will decrease by 11% and farming will increase by 5%. We have available an informative video on our website that outlines how rates are calculated if you would like to expand your knowledge in this area.

We have been conscious of the current financial and economic environment we are operating in, and this budget reflects a conservative approach with the key theme and focus being "finish what we started". We have taken into consideration the rising cost of raw materials, lack of available skilled trades people and decreased funding opportunities, when considering our projects and programs for the next financial year.

Council will continue to focus on the identification of sustainable cost reductions to protect existing service levels. This is being supported by analysing existing services to ensure, where possible, they are cost neutral to the operations of Council. This enables us to redirect funds to capital improvements and priority community projects.

We will also explore new approaches for providing services to our community in a tighter fiscal environment and ensure that we engage with you on any planned changes.

The proposed budget was developed through a rigorous process of consultation and review and Council endorses it as financially responsible. I encourage you to read the remainder of this document, in conjunction with the Council Plan 2021-2025 and I look forward to receiving your submission.

1. LINK TO THE INTEGRATED STRATEGIC PLANNING AND REPORTING FRAMEWORK

This section describes how the Budget links to the achievement of the Community Vision and Council Plan within an overall integrated strategic planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision and Financial Plan), medium term (Council Plan, Workforce Plan, and Revenue and Rating Plan) and short term (Budget) and then holding itself accountable (Annual Report).

1.1 LEGISLATIVE PLANNING AND ACCOUNTABILITY FRAMEWORK

The Budget is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated strategic planning and reporting framework that applies to local government in Victoria. At each stage of the integrated strategic planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Jobs, Skills, Industry and Regions

The timing of each component of the integrated strategic planning and reporting framework is critical to the successful achievement of the planned outcomes.

1.1.2 KEY PLANNING CONSIDERATIONS

Service Level Planning

Although councils have a legal obligation to provide some services - such as animal management, local roads, food safety and statutory planning - most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities.

Further, over time, the needs and expectations of communities can change. Therefore, councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, councils should engage with communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

Community consultation needs to be in line with councils adopted Community Engagement Policy and Public Transparency Policy.

1.2 OUR PURPOSE

Our Vision

A connected rural community who values its land and community wellbeing.

Our Mission

Through strong leadership, transparency and strategic planning Councillors and Staff in partnership with the community will achieve our vision.

We are responsible for passing on a shire that meets the needs of generations beyond our own. Therefore, our work to create the Yarriambiack of the future is guided by the following values:

ICARE Values:

Integrity

- Make decisions lawfully, fairly, impartially, and in the public interest.
- We are honest, trustworthy, reliable, transparent and accountable in our dealings.
- Keep our customers informed, in plain language, about the process and outcome.

Community Focus

- Lead and develop leadership within our community.
- Constantly strive to improve our services.
- Forge closer relationships with customers.

Accountability

- We are careful, conscientious and diligent;
- Use public resources economically and efficiently;
- Investigate matters thoroughly and objectively;

Respect

- Treat people fairly, with respect and have proper regard for their rights.
- Treat our customers with courtesy and respect.

Excellence

- Actively pursue positive outcomes for the community.
- Investigate matters thoroughly and objectively.

1.3 STRATEGIC OBJECTIVES

Council delivers activities and initiatives under 100 major service categories. Each contributes to the achievement of one of the 4 Strategic Objectives as set out in the Council Plan for the 2021-2025 years. The following is a list of the 4 Strategic Objectives as described in the Council Plan.

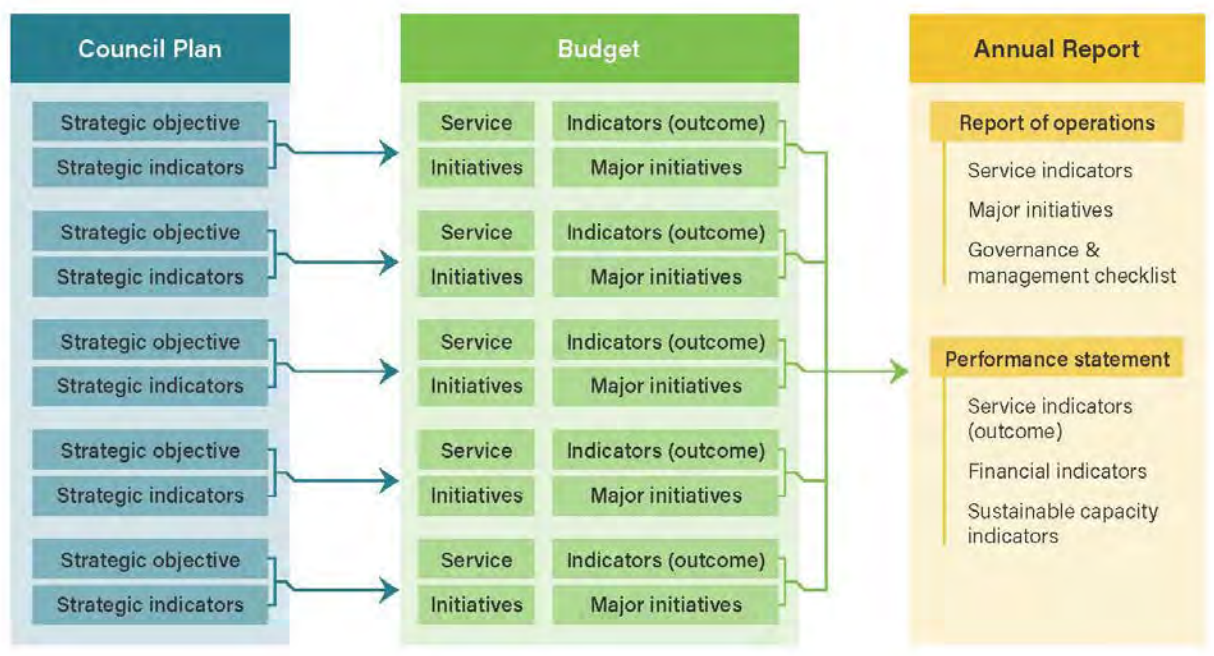

- A vibrant and diversified economy
- A healthy and inclusive community
- A robust and thriving environment
- A council who serves its community

2. SERVICES AND SERVICE PERFORMANCE INDICATORS

This section provides a description of the services and initiatives to be funded in the Budget for the 2023/24 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan.

It also describes several initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability.

The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

Performance indicators address the strategic objectives and are outlined on the following pages relating the objectives to the services and initiatives.

4. NOTES TO THE FINANCIAL STATEMENTS

This section presents detailed information on material components of the financial statements. Council needs to assess which components are material, considering the dollar amounts and nature of these components.

4.1 Comprehensive Income Statement

4.1.1 RATES AND CHARGES

Rates and charges are required by the Act and the Regulations to be disclosed in Council's budget.

As per the Local Government Act 2020, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2023/24 the FGRS cap has been set at 3.50%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 3.50% in line with the rate cap.

This will raise total rates and charges for 2023/24 to \$14.432m

4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %
General rates*	11,538	11,942	404	3.50%
Municipal charge*	398	412	15	3.66%
Waste management charge	1,279	1,677	399	31.18%
Payment in lieu of rates	94	400	306	325.57%
Total rates and charges	13,308	14,432	1,123	8.44%

*These items are subject to the rate cap established under the FGRS

4.1.1(b) The rate in the dollar to be levied as general rates under section 158 of the Act for each type or class of land compared with the previous financial year

Type or class of land	2022/23 cents/\$CIV	2023/24 cents/\$CIV	Change %
General rate for rateable residential properties	0.003872	0.003141	(18.88%)
General rate for rateable commercial properties	0.003872	0.003141	(18.88%)
General rate for rateable farm properties	0.002420	0.001963	(18.88%)

- 4.1.1(c) The estimated total amount to be raised by general rates in relation to each type or class of land, and the estimated total amount to be raised by general rates, compared with the previous financial year

Type or class of land	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %

4.1.1(l) Fair Go Rates System Compliance

Yarriambiack Shire Council is required to comply with the State Government's Fair Go Rates System (FGRS). The table below details the budget assumptions consistent with the requirements of the Fair Go Rates System.

	2022/23	2023/24

4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The variation of returned levels of value (e.g. valuation appeals)
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- Changes of use of land such that residential land becomes business land and vice versa.

4.1.1(n) Differential rates

Rates to be levied

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.3141% (0.003141 cents in the dollar of CIV) for all rateable residential and commercial properties; and
- A general rate of 0.1963% (0.001963 cents in the dollar of CIV) for all rateable farming properties.

Each differential rate will be determined by multiplying the Capital Improved Value of each rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council considers that each differential rate will contribute to the equitable and efficient carrying out of council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate, are set out below.

Residential and Commercial land

Residential land is any land, which is:

- Occupied for the principal purpose of physically accommodating persons; or
- Unoccupied but zoned residential under the Yarriambiack Shire Council Planning Scheme.

Commercial land is any land, which is:

- Occupied for the principal purpose of carrying out the manufacture or production of, or trade in, goods or services; or
- Unoccupied but zoned commercial or industrial under the Yarriambiack Shire Council Planning Scheme.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics described above.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council.

The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district, without reference to ward boundaries.

The use of the land within this differential rate, in the case of improved land, is any use of land.

The characteristics of planning scheme zoning are applicable to the determination of vacant land which will be subject to the rate applicable to commercial land. The vacant land affected by this rate is that which is zoned commercial and/or industrial under the Yarriambiack Shire Council Planning Scheme. The classification of land which is improved will be determined by the occupation of that land and have reference to the planning scheme zoning.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2022/23 financial year.

Farm land

Farm land is any rateable land:

- that is not less than 2 hectares in area; and
- that is used primarily for grazing (including agistment, dairying, pig farming, poultry farming, fish farming, tree farming, bee keeping, viticulture, horticulture, fruit growing or the growing of crops of any kind or for any combination of those activities; and
- that is used by a business -
 - that has a significant and substantial commercial purpose of character; and
 - that seeks to make a profit on a continuous or repetitive basis from its activities on the land; and
- that is making a profit from its activities on the land, or that has a reasonable prospect of making a profit from its activities on the land if it continues to operate in the way that it is operating.

The objective of this differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets;
- Development and provision of health and community services; and
- Provision of general support services.

The types and classes of rateable land within this differential rate are those having the relevant characteristics described above.

The money raised by the differential rate will be applied to the items of expenditure described in the Budget by Council. The level of the rate for land in this category is considered to provide for an appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

The geographic location of the land within this differential rate is wherever located within the municipal district, without reference to ward boundaries.

The use of the land within this differential rate, in the case of improved land, is any use of land.

The characteristics of planning scheme zoning are applicable to the determination of vacant land which will be subject to the rate applicable to residential land. The vacant land affected by this rate is that which is zoned residential under the Yarriambiack Shire Council Planning Scheme. The classification of land which is improved will be determined by the occupation of that land and have reference to the planning scheme zoning.

The types of buildings on the land within this differential rate are all buildings which are now constructed on the land or which are constructed prior to the expiry of the 2022/23 financial year.

4.1.2 STATUTORY FEES AND FINES

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %
Animal fees	36	36	(0)	(0.42%)

Other fees	(15)	12	27	(184.23%)
Total statutory fees and fines	115	158	43	36.95%

Most statutory fees and fines are levied in accordance with legislation and related to income collected through animal registrations, planning and building permits.

Statutory fees and finance revenue for 2023/24 are expected to increase by \$43,000 due mainly to expected increase in building permits and other fees and health fees.

4.1.3 USER FEES

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %
Aged and health services	115	-	(115)	(100.00%)

Vic Roads	8	9	1	19.76%
Other	71	63	(8)	(11.05%)
Total user fees	957	680	(277)	(28.96%)

User fees related to the wide range of services Council provides across its extensive service delivery programs and includes caravan park fees, leisure centre user charges, livestock exchange selling fees, and waste management fees.

Council set fees based on market conditions and the costs associated with running a service while giving consideration to those who may be suffering financial hardship.

User fees are expected to decrease by \$277,000 or 28.96%. This reduction is due predominately to Council making the decision to withdraw from providing the CHSP program which will mean a reduction in aged and health services and meals on wheels user fees.

4.1.4 GRANTS

Other	6	3	(3)	(56.67%)
Total employee costs	11,678	12,677	999	8.56%

Employee costs include all labour related expenditure such as wages and salaries and on-costs such as allowances, leave entitlements, employer superannuation, travel and conference and training.

Employee costs are forecast to increase by 9.38% or \$1.095 million compared to 2022/23. This increase relates to increased number in the number of permanent staff from labour hire, projected annual enterprise agreement increases and movement between levels within wage bands. Also includes a provision for redundancies at the end of 30 June 2023

4.1.8 MATERIALS AND SERVICES

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %

Other	99	6	(92)	(93.52%)
Total materials and services	7,724	9,905	2,181	28.23%

Materials and services include the purchases of consumables, payments to contractors for the provision of services and utility costs. Materials and services are budgeted to increase by 28.23% or \$2.181 million compared to 2022-23.

The increase in consultants includes the provision of building services, compiling master plans for recreation facilities, early years practitioners, youth strategy, planning amendments, and local laws review. Allowance has also been made for the use of consultants for architects and legal advice. Contractors have increased due to the use of contractors to continue doing flood restoration works in 2023/24.

4.1.9 DEPRECIATION

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %
Property	546	405	(141)	(25.74%)

Infrastructure	4,012	3,949	(63)	(1.58%)
Total depreciation	5,669	5,861	192	3.39%

Depreciation is an accounting measure that attempts to allocate the value of an asset over its useful life. The depreciation charge is used as a proxy for the funds required to renew council's assets to maintain agreed service levels. The increase of \$192,000 is due to the effect of assets related to the capital works program having a full year effect of depreciation.

Other	6	-	(6)	(100.00%)
Total contributions and donations	612	599	(13)	(2.15%)

All recreation reserves, swimming pools, community halls, progress associations and weir pools have received an annual increase in funding of 3.5% for the 2023/24 financial year. There is a slight decrease in contributions and donations from 2022/23 due to community project contributions being completed in 2022/23.

4.1.12 OTHER EXPENSES

	2022/23 \$'000	2023/24 \$'000	Variance \$'000	Change %

Total other expenses	2,156	1,839	(317)	(14.70%)

Other expenses relates to a range of unclassified items including audit fees, insurances, auditor remuneration, subscriptions and other miscellaneous items.

4.2 Balance Sheet

4.2.1 ASSETS

Current assets (\$9.364 million decrease) and Non Current assets (\$8.937 million increase)

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less.

These balances are projected to decrease by \$2.42 million during the year, this is dependent on when capital works are completed.

Trade and other receivables are monies owed to council by ratepayers and others. The balance is expected to decrease by \$210,000 over the budget period as no large accounts are expected to be raised for grants in 2023/24.

4.2.2 LIABILITIES

Current liabilities (\$2.834 million increase) and Non Current liabilities (\$479,000 increase)

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to increase due to the cost of materials increasing and a new loan that will be drawn down in 2023/24.

Provisions include accrued long service leave, annual leave, sick leave owing to employees and rehabilitation costs for ceased landfill and gravel pit sites.

4.2.3 BORROWINGS

The table below shows information on borrowings specifically required by the Regulations.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Projections 2024/25 \$'000	2025/26 \$'000	2026/27 \$'000
Amount borrowed as at 30 June of the prior year	-	-	450	400	350
Amount proposed to be borrowed	-	500	-	-	-
Amount projected to be redeemed	-	(50)	(50)	(50)	(50)
Amount of borrowings as at 30 June	-	450	400	350	300

4.2.4 LEASES BY CATEGORY

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000
Right-of-use assets		
Vehicles	1,410	1,130
Total right-of-use assets	1,410	1,130
Lease liabilities		
Current lease Liabilities		
Plant and equipment	336	380
Total current lease liabilities	336	380
Non-current lease liabilities		
Plant and equipment	264	264
Total non-current lease liabilities	264	264
Total lease liabilities	600	644

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities.

4.3 Statement of Changes In Equity

4.3.1 RESERVES

Reserves contain both a specific cash backed reserve and asset revaluation reserves. The cash backed reserve is a small infrastructure fund for aerodromes. No variation is expected in 2023/24.

The asset revaluation reserve represents the difference between the previously recorded value of assets and their current valuations. Asset valuations are required to be considered annually and formally revalued if there is a material change.

4.3.2 EQUITY

Equity is the accumulated surplus in the value of all net assets less specific reserve allocation and revaluations that have been built up over the financial year.

4.4 Statement of Cash Flows

4.4.1 NET CASH FLOWS PROVIDED BY/USED IN OPERATING ACTIVITIES

Operating activities refers to the cash generated or used in the normal service delivery functions of Council. Cash remaining after paying for the provision of services to the community may be available for investment in capital works or repayment of debt.

The 2023/24 budget for net cash provided by operating activities is \$5.453 million less than the forecast in 2022/23.

The net cash flows from operating activities does not equal the operating result for the year, as the expected revenues and expenses of the council include non-cash items which have been excluded from the Cash Flow Statement.

4.4.2 NET CASH FLOWS PROVIDED BY/USED IN INVESTING ACTIVITIES

Investing activities refers to cash generated or used in the enhancement or creation of infrastructure and other assets. These activities also include the acquisition and sale of other assets such as vehicles, property and equipment.

The increase in payments for investing activities represents the planned increase in capital works expenditure disclosed in Section 3 of the Budget.

4.4.3 NET CASH FLOWS PROVIDED BY/USED IN FINANCING ACTIVITIES

Financing activities refers to cash generated or used in the financing of Council's functions and include borrowings from financial institutions and advancing or repayable loans to other organisations. These activities also include repayment of the principal component of loan repayments for the year.

4.5 Capital Works Program

This section presents a listing of the capital works projects that will be undertaken for the 2023/24 year, classified by expenditure type and funding source. Works are also disclosed as current budget or carried forward from prior year.

The list of carried forward projects included at 4.5.3 is based on the best available information at the time of setting the budget, this may differ from what occurs at year end.
