BEULAH:

Situated along the Yarriambiack Creek, Beulah provides a relaxing atmosphere for visitors and a variety of exciting activities that will ensure your stay is a memorable experience.

The Round Hospital was opened in 1954 and was the first of its type in the Southern Hemisphere designed by architect Peter McIntire. Some of the building construction was pre-fabricated which was unusual for the time. The very modern design is still spoken about in educational lectures at Latrobe University. The historic old round hospital is now home to the Beulah Business and Information Centre and the General Store & Cafe.
