6/10/2023	Attendees at the park often try to park in adjoining private residence block.	<ul style="list-style-type: none"> - Private landowner has locked the gate - Signage to be expanded in master plan
	Attendees at the park may sometimes light fires in undesirable areas, or set up camp outside of designated camp sites	Signage and formalization of camp sites in the master plan will address these issues
	Resident has indicated that the gates on the back of her property adjoining the west boundary of the park will be decommissioned, meaning that the suggested plantings can stretch the entirety of the fence on her property	To be noted for the project delivery phase
	Resident has indicated her intention to subdivide the vacant block she owns to the south of her house block that adjoins the park. Does this present an opportunity for use by Council?	Landowner advised to write to the CEO if their intention is to involve Council use. Planning applications are underway.
	The subdivision of land mentioned above will need access from Evelyn St	To be noted in the delivery phase of the third entrance – space will need to be provided to allow access, though noting a second driveway would include access across Council property.
	There are overhanging branches along resident fence that will eventually need to be addressed	Advised that CRMs can be lodged
	Overall, very supportive of the proposed actions of the master plan.	
2/10/2023	Highlighted the issues with power outages to the cabins	This has been listed as a high priority in the master plan
	Bee hives high above cabins 3 and 4 have at times impacted use of the cabins. Require relocation	Advised that CRMs can be lodged
	A number of tree branches overhang the cabins, and on occasion one was dislodged and broke a cabin window	Advised that CRMs can be lodged
	The driveways to cabins 4 and 5 are partially obstructed	Advised that CRMs can be lodged
	Water pools in front of the cabins due to inadequate drainage	This has been addressed in the master plan

	The use of the cabins BBQ should be for cabin residents only but has been used by others at times	Signage in master plan to address this
	Signage to differentiate the private cabins and Council-owned cabins	To be more clearly defined in the signage requirements
4/10/2023	Add powered sites
