## 16.1 Financial and Non-Financial Performance Report

***Prepared by Tony Caccaviello, Director Business Strategy and Performance***

### SUMMARY

In accordance with the *Local Government Act 2020* and the Local Government (Planning and Reporting) Regulations 2020, Council is required to have an integrated approach to strategic planning with the requirement that monitoring, and performance reporting is to be adopted.

Schedule 1 – Annual Report Governance and Management Checklist in Report of Operations contained within the Local Government (Planning and Reporting) Regulations 2020 requires Performance Reports to be prepared six monthly to monitor Council's financial and non-financial performance.

These two requirements have been consolidated and presented in this report.

### RECOMMENDATION

That Council:

- a) Adopt the quarterly Financial and Non-Financial Performance Report, that includes the six-monthly Local Government Performance Reporting, as of 31 December 2022 as attached to this report.

### ATTACHMENTS

[Attachment: Financial and Non-financial Reporting Report Quarter 2](#)

### DISCUSSION

Schedule 1 of the Local Government (Planning and Reporting) Regulations 2020, identifies that Council must produce the following reports within identified time frames as below:

- a) Quarterly Budget Reports, comparing actual and budgeted results and an explanation of any material variations must be completed.
- b) Risk Reports, 6-monthly reports of strategic risks to Council's operations, their likelihood and consequences of occurring and risk minimisation strategies.
- c) Performance Reports, 6-monthly reports of indicators measuring financial and non-financial performance, including the performance indicators referred to in section 98 of the Act.

The Management Team has adopted a holistic approach to meet the requirements of the *Local Government Act* and Regulations, by compiling a Quarterly Financial and Non-Financial Performance Report.

The report incorporates budget, risk and performance reporting. The Council's risk appetite has been utilised to develop non-financial performance indicators for reporting purposes.

Results and commentary on the six months to 31 December for the Report of Operations has been consolidated into this report given its complementary nature. The report is a guide to assessing and monitoring organisational performance based on the half yearly results.

The report is presented to the Management Team and the Audit and Risk Committee, prior to the scheduled Council meeting each quarter.

## RELEVANT LAW

*Local Government Act 2020* – Section 97 Quarterly Budget Report

Local Government (Planning and Reporting) Regulations 2020

## COUNCIL PLANS AND POLICIES

- Annual Budget 2022-2023
- Performance Reporting Framework

## RELATED COUNCIL DECISIONS

Minutes 29 June 2022 – Adoption of the Annual Budget 2022-2023

26 October 2022 – Minutes – Financial and Non-Financial Performance Report Quarter 1.

## OPTIONS

The option presented in this report is to provide Council with a quarterly report encompassing both financial and non-financial performance reporting, provides enhanced governance and oversight, and promotes transparency in decision making.

Options to be considered:

- a) The Report is presented in a combined overarching report format that is presented quarterly.
- b) The Reports could be separated into three distinct reports, opposed to a combined overarching report that is presented quarterly.
- c) The Risk Report and Performance Reports could be moved to 6 monthly in line with the Local Government Act requirements, with the Budget Reports being quarterly only.

## SUSTAINABILITY IMPLICATIONS

Council must give effect to the overarching governance principles in section 9 of the *Local Government Act 2020*, when considering sustainability implications.

*Financial:* Yarriambiack Shire Council is heavily reliant on operational and capital grants as a source of revenue funding. This poses a significant financial risk to Council. Councils' ability to raise source revenue is restricted by the annual rate cap and is at risk to decreases or increases that are lower than cost inflation.

## COMMUNITY ENGAGEMENT

Engagement has not been undertaken to develop the Performance Reporting Framework.

In accordance with section 9 of the *Local Government Act 2020*, Council must in the performance of its role give effect to the overarching governance principles.

The financial and non-financial performance indicators are utilised as a tool for decision making to achieve good governance.

Council adopted a Community Engagement Policy which is applied when developing and consulting with the community in relation to the Annual Budget development and adoption. The quarterly report outlines Council's financial position against the adopted budget.

## GENDER IMPACT ASSESSMENT

Not required for this report.

**RISK**

Utilising the Risk Management Framework, the following assessment has been made:

<b><i>Strategic Risk Description and Residual Risk Level</i></b>	<b><i>Action to Mitigate/Reduce Risk</i></b>	<b><i>Does Action maintain or reduce Residual Risk Level</i></b>

The system is a multi-functional core business system of Council that is utilised to systematically manage the delivery of Councils property, rating, receipting, animals and infringements functions.

The system has been successfully implemented with the property and rating functionality utilising operating since the 2021/22 financial year.

At the time of awarding of the Corporate Systems C262-2020 contract, the CouncilWise product was deemed the best value for money solution for Yarriambiack Shire Council. This position remains the same based on:

- Strong alignment to the strategic pillars of the *ICT and Business Transformation Strategy*.
- The system is embedded in key actions of the Strategy Roadmap to move Council from its current state to meet the direction outlined in the *ICT and Business Transformation Strategy*.
- Full integration with Council's financial system.
- Additional investment made during the initial contract term to integrate CouncilWise with Council's Customer Request Management software and Council's planning and building regulatory system.
- Core shared system attached to several objectives of the Rural Council Transformation Program Round 2 project.
- Continued strong relationship with the vendor including monthly and direct product development and feedback meetings between Council staff and CouncilWise.

The annual SaaS subscription fee for any extension to the initial term is required to be negotiated, with these negotiations expected to be completed in good faith and potentially adjusted from the initial annual fee in line with changes in line with CPI.

## OPTIONS

- Council could choose not to extend the contract and utilise a different system to manage its property, rating, receipting, animals and infringements functions.

## SUSTAINABILITY IMPLICATIONS

*Financial:* The extensions of this contract will enable the continued use of this system which is a core business system. This system is integrated with Council's financial system and a key component of collaboration efforts with neighbouring LGA's as part of the Rural Council's Transformation Program. Ending the contract and seeking a new provider and system is not likely to achieve greater value for money for Council.

#### DISCUSSION

##### Share Grant Program

Council allocates two funding rounds each financial year of \$30,000 to the Community Share grants program. Round 2 of this financial year's program is scheduled to open in February 2023.

A review has been completed considering feedback received from the community; analysis of trends in previous applications and available funding for community projects; and analysis of upcoming community projects as identified in community progress meetings.

The revision to the policy includes the program to be structured into the following four funding streams:

- Community Events
- Business & Streetscapes
- Community Building – Minor
- Community Building – Major

This structure would be implemented prior to the release of Round 2 of the current financial year program. Going forward, the program would be changed from its current two round structure to a one-off round per financial year.

#### Spark Tank Business Innovation Program

Council has received funding from the State Government to deliver two rounds of business innovation funding referred to as the Spark Tank Business Innovation Program. Round 1 of this program was completed earlier in the financial year, with a second and final round required to be delivered to achieve the funding outcomes and agreed project deliverables. The Spark Tank program is fully funded by the State Government's Regional Tourism Investment Fund, with no further funding committed currently to this program in future years.

The structure of the program will remain the same for the final funding round of the program. The guidelines have been updated to emphasise that the funding is intended to be focused on outcomes to the visitor economy.

**17.2 Request to upgrade the section of Millers Road*****Prepared by Pradip Bhujel, Asset Engineer.******Presented by Joel Turner, Acting Director Assets and Operations*****SUMMARY**

This report considers a request for Council to upgrade a section of Millers Road, between Rupanyup South School Road and Warranooke Road, totalling a length 1400 metres, to a classification of All Weather Rural Access, Secondary, RA5 - gravel surface. The proposed road section is currently classified as a Rural Access, RA6 – earth formation.

**RECOMMENDATION**

That Council:

- a) Denies the request due to the cost to upgrade this section of road is too high when Council has already met the requirements of the Road Management Plan, Road Hierarchy and the Access to Rural Properties Guideline by providing all weather access to the properties and two houses.

**ATTACHMENTS**

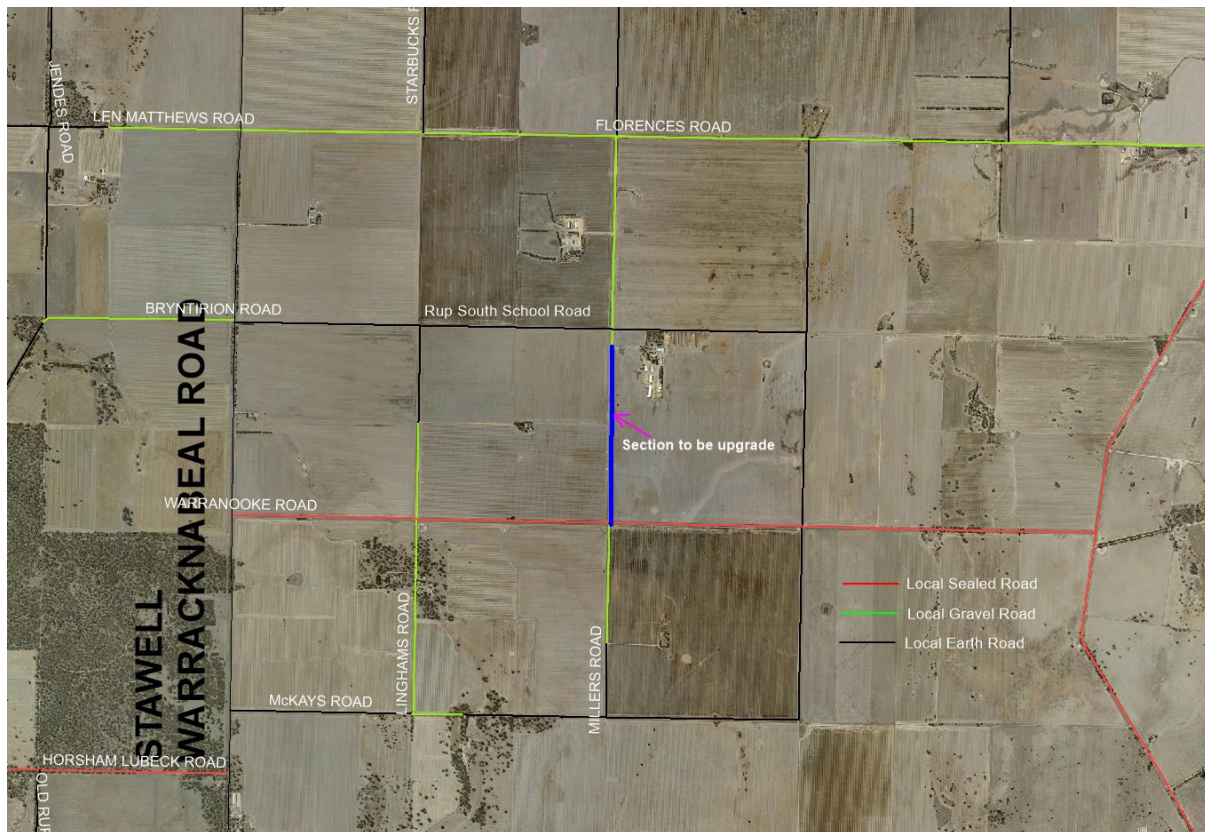

[Attachment: Letter – request to upgrade Millers Road](#)

**DISCUSSION**

Council received a letter dated the 18 November 2022 requesting the Southern end of Millers Road, Rupanyup, be gravelled urgently and contains signatures of support from the local farmers. The section proposed is between Rupanyup South School Road and Warranooke Road.

The issues presented in the letter were as follows:

- The proposed section of Millers Road is unusable in wet weather and has been an on-going issue for years.
- Has been inaccessible all year (2022) due to unseasonable weather conditions. The lack of access creates many issues and would be in everyone's interests to resolve them.
- Creates extreme pressure on Florence's Road, resulting in more maintenance having to be carried out regularly, creating more inconvenience and hazards.
- The pressure could be distributed across two roads minimising damage and improving outcomes for stakeholders.
- Accessibility for vehicles including emergency services, due to GPS directions.
- The gravelled surface will create greater access to Stawell-Warracknabeal Road and Donald Stawell Road.

*Picture 1 Location of Millers Road to be upgrade*

### Officer Findings

Millers Road is 6.550 km in total length starting from McKays Road heading North. Electronic records indicate the segment being considered has not been gravel in the last 17 years.

The cost of construction to upgrade the proposed section of road 1490m in length and 4m wide to a gravel surface would be \$90,000 (ninety thousand dollars).

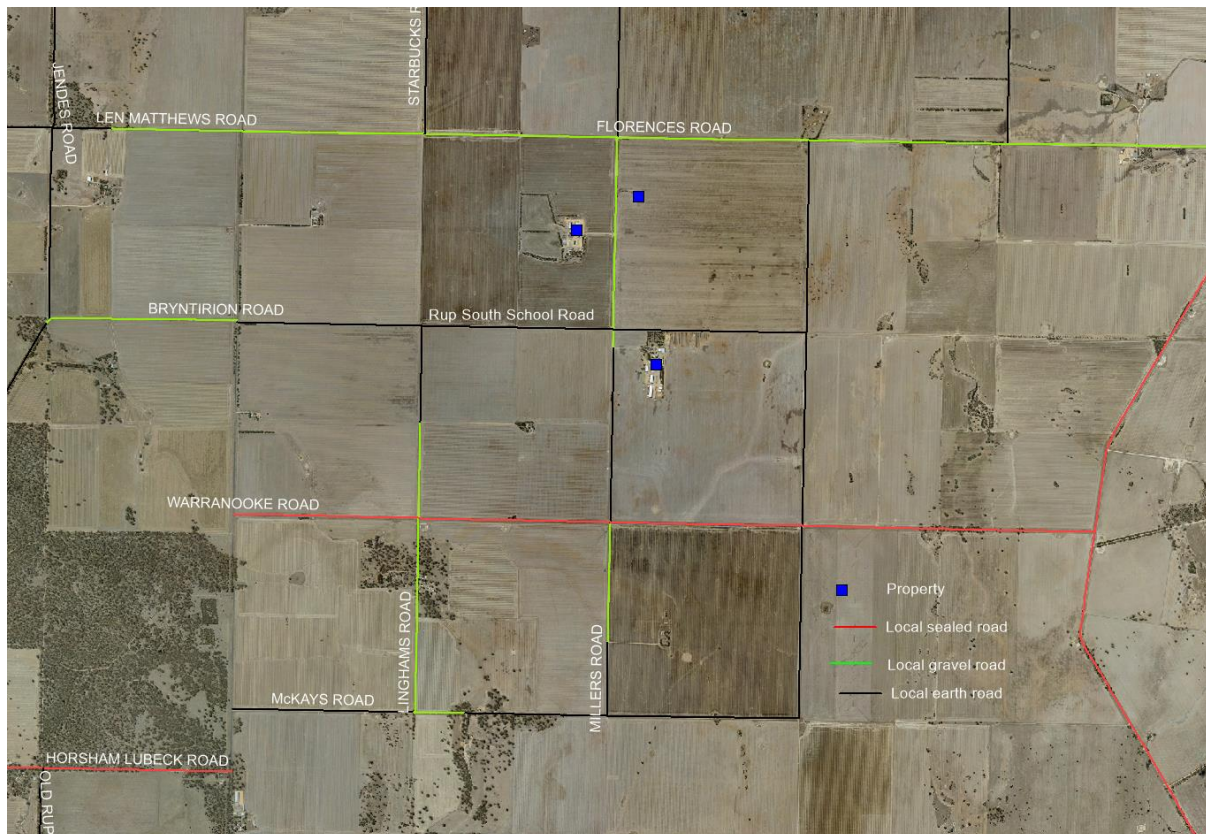

Under Council's Road Hierarchy, the requested section of Millers Road is classified as an RA6 (Rural Access Road), earth formation. This type of road can only be maintained to a higher standard in accordance with Council's Road Management Plan.

#### RMP-5.15 Access to Rural properties

The access to the farm properties and lands with unoccupied houses will be provided via earth formation which will, at a minimum, provide a dry-weather access to those properties.

Any request for upgrade of road to a higher standard will be treated on a case-by-case basis. In principle, it is expected that the cost of such upgrade will be borne by the party requesting the upgrade. Any of such upgrade shall be approved by the Council at an Ordinary Council Meeting.

All surrounding properties of the proposed segment upgrade are connected with an all-weather access route via a gravel surface or sealed surface. The two rural houses also have all weather access via a gravel surface on Millers Road, meeting the Road Hierarchy and Assets and Operations-Access to Rural Properties criteria.

## COUNCIL PLANS AND POLICIES

  - Ensuring land use does not compromise the right to farm
- b) Road Management Plan
- c) Road Hierarchy
- d) Assets and Operations Guideline

## RELATED COUNCIL DECISIONS

## OPTIONS

Recommended options:

1. Council agrees to upgrade the section of Millers Road to an all-weather access road and categories the road as Special Purpose SP2.
2. Council asks for the group of farmers to contribute to pay all costs for the gravel surface and Council would program the works to be carried out in the 2023-24. When the surface reaches the end of its life, the financial cost for renewal would be

reviewed at the time. The road would stay as a Rural Access secondary (RA6)-earthen road on the road Hierarchy, but the surface would be gravel.

3. Council asks the group of farmers to contribute to a percentage all costs for the gravel surface and Council would program the works to be carried out in the 2023-24. When the surface reaches the end of its life, the financial cost for renewal would be reviewed at the time. The road would stay as a Rural Access secondary (RA6)-earthen road on the road Hierarchy, but the surface would be gravel.
4. Refuse the request to upgrade and reclassify Millers Road but categorise the road as a priority Maintenance Road (RA6) (PM).

### SUSTAINABILITY IMPLICATIONS

*Economic:* Support economic development via business farming enterprises.

*Social:* Safety for road users and improved transport route to and from the primary farm.

*Financial:* Would need to be funded through Council's Capital Works Program or maintenance expenditure which would require additional budget.

*Social:* Supporting the management of local facilities by local people creates a sense of ownership and belonging, providing for an inclusive community and environment.

**18.3 Warracknabeal Regional Livestock Exchange – Canteen Lease*****Report Prepared by Tim Rose, Manager Community Health******Presented by Gavin Blinman, Director Community and Wellbeing*****SUMMARY**

The Warracknabeal Regional Livestock Exchange (the saleyards) is an important economic asset and service to both the local community and wider sheep industry. The saleyards operate once per fortnight throughout the months of February to October. Sheep sale numbers are routinely recorded between 2,500 and 5,000 per sale.

The saleyards facility offers a canteen service, providing basic food and drink options to stock agents, buyers, sellers and visitors. The canteen has been previously operated by private food business proprietors. There have been no prior written arrangements around the use of the canteen and Council is now looking to formalise this activity by way of a lease. A lease will help ensure that the canteen operation continues and that the activity is undertaken transparently and fairly for both parties.

**RECOMMENDATION**

That Council:

1. Authorises the public advertisement of the canteen facility (for lease) and establishes a subsequent lease with an approved food business proprietor.
2. Offers the canteen facility to the lessee for the independently valued rate of \$25.00 per use (equates to per fortnight based on sale days).

**ATTACHMENTS**

[Attachment: Valuation - Canteen Livestock Yards - 74 Henty Highway Warracknabeal](#)

**DISCUSSION**

Offering the canteen by way of a formal lease is a way to ensure Council gains commitment from the operator and maintains continuity of service at the saleyards. An advertised lease will also ensure that Council is appropriately and transparently offering a Council asset for use by a private for-profit business.

The \$25.00 per use valuation was obtained independently and determined based on covering Council's basic utility and maintenance costs, while still offering an attractive proposition to a private party.

**OPTIONS**

- There are a very few alternative options that will not breach our Leases and Licensing Policy. One option available to Council would be to not offer the canteen via a formal

lease and cease the canteen operation. However, the service is significantly valued by facility users and such a decision could result in a decline in sale numbers.

### SUSTAINABILITY IMPLICATIONS

*Economic:* A lease creates an additional economic opportunity for the local community.

In ceasing the service, Council risks a reduction in use of the facility as buyers have indicated their preference for a site with food and drink options.

*Financial:* Consistent canteen operation, together with various other investments made towards improving the facility, will increase sale numbers and Council revenue.

### COMMUNITY ENGAGEMENT

Consultation has been received from local Stock Agents regarding the operation of the canteen at the saleyards. They have indicated that such a service is essential for the viability of the facility and encourage Council to implement a system that ensures continuity of service.
