| Please provide your feedback regarding the Common Seal and Conduct at Meetings Local Law 2024. | <p>In relation to the conduct local law, it must be pointed out that Local Laws are designed to regulate matters that other laws do not. There are suitable state laws that Council could use, such as trespass, and seek support from local police to enforce.</p> <p>Furthermore, open must ask why this law is needed? Has there been an outbreak of inappropriate behaviour by Councillors and/or the public? Will this local law be used to intimidate people? I think so?</p> <p>And, finally, why are all councils bringing this local law in? Horsham has done so recently. Is there a combined push by someone to intimidate/silence elected officials?</p> <p>This Local Law should be rejected.</p> |
