Please provide your name:

[REDACTED]

What town do you live in, or nearest to?

Murtoa

Please provide any comments or feedback in relation to the Year 2 Actions for the Council Plan:

From my perspective as a Murtoa resident, Council needs to be ready to capture future industrial growth opportunities associated with the introduction of QUBE to the region. This represents a significant opportunity that Yarriambiack Shire has not seen for many years. I believe this plan should more clearly acknowledge the potential for industrial growth and be honest with the community about the opportunities this investment may bring. Murtoa is well positioned to benefit from this growth, and Council should ensure appropriate planning is undertaken now so the Shire is prepared to support and attract future industry investment.
